

Instruction to Install the program for online HSK Exam (Home Edition)

Please Note: This installation is only for HSK 3/4/5/6 and HSKK Candidate. Please download it at least 2 days before the test. If you will take YCT (all level) or HSK 1 & 2, you Don't need to download it

1. Step 1: Please open the "Google Chrome" browser to open the following site to get access to download center

<https://test.chinesetest.cn:36165/client.html>

2. Step 2: Two kinds of download files will be open

1. 考试客户端 (HSKClient)
2. 考试客户端运行依赖文件 (HSKClient running dependency file)

3. Step 3: Click [HSKClient-Home20200608-HW.zip](#) Date:2020-06-08 [1. 考

试客户端 (HSKClient)] to download the ZIP File

4. Step 4: After downloading, unzip and run ExamClient.exe.

5. Step 5: Double Click [**ExamClient.exe**] to install the page.

1. If the ExamClient fails to open, please download and install the client dependency

file, and try again.

2. Then just click **[ExamClient]**

6. Step 6: The Confucius webpage automatically open after the successful installation of **[ExamClient.exe]**

1. Click the language you prefer_ **[English]**

2. Automatically check the condition of the Camera; earphone(headphone) and the speed.

3. You can proceed further only after the indication of **[NORMAL]**.

4. If any of them does not function well, the system will indicate **[Abnormal]**, you won't be able to proceed further. That means you won't find the **[NEXT]** button. So make sure that Camera and earphone are in good order and internet connection is well.(above 100kbps)

7. Step 7: Click **[NEXT]** lead to the Check Audio clarity. YOU are allowed to speak and listen to the clarity of the audio.

8. Step 8: After all accepted, you will be lead to the system login page. Please read the Notice at the left screen and the Test regulations.

9. Step 9: Please login by entering Name, Email, Gender, Nationality and Test level. the information used must be identical to that of online HSK registration.

....

10. When you finish the online test, you can click the bottom on right side to quit, or ALT+F4 then input password "quit" to quit.
